

GRANUFLEX®

HOME

Living made easy

Product circularity and living comfort are united in our Home products. If you are sensitive to the environmental impact of materials commonly used in the home, it's almost impossible to ignore the fully recyclable rubber products offered by Granuflex.

The specific properties of rubber increase comfort in and around the home, both indoors and outdoors. And in a way that other materials cannot hope to match.

HOME FITNESS

HOME FITNESS BASIC 15MM

Conveniently sized fitness mat. Protects any floor in the house where weights are used. Flat on both sides.

500x500MM
226ZWA015M1050FH

HOME FITNESS IMPACT 25MM

Fitness mat specially developed for creating an optimally damped floor in your home. Thanks to the specially profiled structure on the underside, the absorption of sound and vibrations is even further improved. Flat on top.

1,000x1,000MM
226ZWA025M4100HE

HOME FITNESS KETTLEBELL 43MM

Fitness mat specially developed for creating a dampened platform when using kettlebells and heavier weights. Thanks to the specially profiled structure on the underside, the absorption of sound and vibrations is optimal.

500x500MM

HOBBY TILE 25MM

Rubber tile suitable for many applications. A terrace can be laid on a balcony, roof, patio and/or garden in no time at all. And the installation of a walkway or damping surface is both quick and easy.

1,000x1,000MM
221ZWA025BL100XX

SAFETY TILE 43MM

Rubber tile for creating an optimally damping substructure. Also suitable for laying a terrace on which garden furniture is to be placed. The tile's special open structure allows rain to easily drain through it.

1,000x1,000MM
223ZWA043BL100XX

ARTIFICIAL GRASS GALLERY TILE NATURAL LOOK 50MM

Tile with a long-fibred artificial grass top layer. Without pin/hole connection. Its high quality artificial grass lends it a very natural appearance.
